mwheeler@psa.asn.au

# Community & Public Sector Union: The General Staff Union

## General Staff and ACU in 2005

There are many changes that will be implemented at ACU in 2005, and the CPSU wants to know what your concerns are.

Some of these changes include:

- Enterprise agreement negotiations
- Reduction of ACU revenue because of Cardinal Pell's announcement of possible rent increase for both Sydney campuses.
- Further reduction of ACU revenue because of competition from new Sydney Notre Dame campus
- Expansion of student enrolments in Nursing
- New Loreto building to house School of Exercise Science, previously at MacKillop, North Sydney campus.

As the exclusive General Staff Union, the CPSU's top priority is to make sure that your working conditions are fair and just, and that your rights are being respected by your employer.

If you are concerned about the possible threat of work overload, occupational health and safety issues, or you are asked to do work which is not in your position description, then we want to know.

Please contact your delegates (see sidebar) for more information.
